

#### Constipation the Father of Many Ills.

Of the numerous ill that affect humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When a laxative is needed take Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Obtainable everywhere.

Mr. and Mrs. Fred Swarz of Wellington, spent Sunday here with Mr. and Mrs. N. H. Mig-nery.

Hubert Field of Kansas City, spent Sunday here with his parents, Judge and Mrs. Richard Field.

#### Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Mrs. S. Hill of Kansas City, spent Sunday here with Mr. and Mrs. J. C. Young.

Misses White Lockhart and Louie Crawford of Roswell, N. M., who have been visiting relatives in this vicinity left Tuesday morning for their home.

Mr. and Mrs. T. J. Moore, who has been visiting Mrs. Clara Moore and the family of James Hackler, left Sunday evening for their home in Springfield, Mo.

#### Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is a medicine that every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.

G. C. Marquis went to Kansas City Saturday on business.

Miss Marion Young returned to her home in Wellington Saturday after a visit here with relatives.

Mrs. George B. Sydnor returned to her home in Sedalia Saturday after a visit with her son, Rev. F. M. Burton.

Mrs. J. W. Warder, Sr., and little Miss Doris Long went to Higginsville Saturday for a visit.

#### How to Give Good Advice.

The way to give advise is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy has been in use for many years and enjoys an excellent reputation. Obtainable everywhere.

Mrs. Kitty Satterfield returned to her home in Kansas City Saturday after a visit here with Mrs. Harriet Barron.

H. E. Slusher and sister, Miss Elizabeth, went to Warrensburg Saturday for a visit.

#### "CULTURED" BUTTERMILK

Better and Cleaner Than Old-Fashioned Product.

The term buttermilk, has for many years been applied to the product left after churning milk or cream, and abstracting the butter. In the few years a new kind of buttermilk has been placed on the market which is rapidly displacing the old-fashioned, home-made product. Some prejudice exists against this manufactured buttermilk, but, according to Dr. M. P. Ravenel of the preventative medicine department of the University of Missouri, it is really cleaner, has a better taste and is a more suitable for food purposes than the old product.

Butter manufacturers do not depend on the accidental souring of milk as much as formerly, says Dr. Ravenel, but are using "pure culture starters," as they are called. So in manufacturing buttermilk, a known germ is added to skimmed milk, and an artificial buttermilk is produced.

Slightly different methods exist, but this receipt represents the newer product, and will show people what they are drinking when they take the manufactured buttermilk. One gallon of whole milk is added to twenty gallons of skimmed milk as soon as it has been separated. This is not necessary, but is done because most people like to see some signs of butter fat in buttermilk. "Starter" is added, and the whole quantity of milk is kept at 70 degrees F. for six or seven hours, when it will be found to have curdled. It is then churned for one-half hour, and should be bottled at once and cooled to 50 degrees or below to prevent the further development of acid and separation of the whey. It is finally strained through cheese cloth to remove any coarse lumps. It is a refreshing and tasteful drink with high food value, and as a summer drink is especially good for both children and adults.

#### Wilson's Idle Moments.

From the New York Evening Post  
The President, he is a lucky man, these days. He has nothing to do. A few trifles take up a few minutes of his time, but the rest is all his own. He merely has to keep watch of legislation; prod Congressmen; read the reports from the Mexican frontier; and give the consequent orders; confer with the members of the Cabinet; try to get competent men to serve on the joint Mexican Commission; make new complaints to Great Britain and Germany; talk for an hour to 640 railway leaders in the East Room; confer with all the railway presidents; keep up with his correspondence; receive delegations; read Republican speeches. Time would hang heavy on his hands were it not for the presence of a former Judge in the White House grounds who throws stones at the windows and cries out that the man living there is incurably inefficient. But for this diversion, President Wilson might not be able to resist a feeling of ennui.

L. Weinstein went to St. Louis Sunday morning on business.

Everet Mitchell, who has been visiting his parents, Mr. and Mrs. Charles S. Mitchell, left Sunday morning for his home in Dennison, Texas.

E. F. Mollenkamp and son spent Sunday in Higginsville.

Miss Carrie Johnson, who has been the guest of Mr. and Mrs. F. R. Howe, returned Sunday evening to her home in Independence.

Mrs. Arthur Drumm returned Sunday evening from a visit with her daughter, Mrs. H. B. Sexton, at Centralia, Mo. Mrs. Sexton accompanied her home for a visit.

**31½**  
Horsepower

New Series  
*Overland*  
Model 75 B

**\$635**  
Roadster \$620  
F. & L. Toledo

## A Wonderful Automobile Value

There is no necessity of paying \$1500 to \$2000 for an automobile.

Here is one for \$635 that gives you all you need.

It seats five comfortably. Has a big, powerful 31½ horsepower motor; has electric lights and electric starter and

is right up-to-date in every respect.

This car is beautifully finished; works like a beaver; will outlast any other, and gives 40 to 50 miles an hour.

This Overland is the most wonderful automobile value in the world.

Come in and see it today.

#### FILLING THE SILO

##### Dry Years Bring Special Problems but Make Silos More Necessary.

No rule can be laid down for filling the silo during a year of short rainfall, says C. H. Eckles of the Missouri College of Agriculture. When the corn matures normally the time to put it in the silo is when the kernels are dented and glazed but the kernel still soft enough so it may be broken with the thumb nail. At this time the husks will generally be turned yellow at the end of the ear. Corn may be put in after it is almost dry if enough water is added.

Where corn is injured by the drouth it should be allowed to stand as long as there is any hope at all of its getting rain to complete its growth. If it begins to die it should be put in the silo, as by this means what feed value it contains will be saved. If it cannot be put into the silo just then it may be shocked and put in later, as tests at the Missouri Agricultural Experiment Station have shown that shock corn makes good silage. Of course, it is not as good as that made at the usual time.

When filling the silo, remember that silage spoils if too dry or the air is not expelled by thorough tramping. The tendency of late years has been to put corn in the silo too dry. It should be moist enough to wet the feet of the men who tramp it. If too dry, add water by running it into the blower. At least two men are needed to tramp the silage at filling.

Special attention should be given to packing well around the edges. If the walls of the silo are not in good condition repairs should be made to keep out the air. If the doors do not fit well a good plan is to place a piece of tarred paper over the door on the inside allowing it to extend about two feet on each side.

#### CASTORIA

For Infants and Children  
In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Mitchell*

Mrs. Mary Misenhelter returned Sunday morning from a visit in Richmond.

#### Road Dragging Time.

Few farm tasks bring more pleasure than dragging roads, both to him who drags and to him who enjoys a ride over a well-dragged road. It is a little hard on the horses ahead of the drag on a hot day but an occasional rest helps them out.

There is every opportunity to get good results from road dragging now. The weather is likely to remain reasonably well-settled and people have time both to drag and to use the roads. Chautauquas are about over, but county fairs, picnics, outings, and many similar festivities are made more enjoyable by the liberal use of the drag. Coal, building material, and supplies of all kinds can be hauled from town in much larger loads and in fewer trips if everyone along the road has done his share of the good work.

A well-dragged road in front of the farm is a great satisfaction to the owner but why not give him the additional satisfaction of letting him know that you appreciate what he has done as you drive by? Why not tell him what you think and help establish a prize for the best dragged piece of road? There are few ways in which a little money will bring bigger results in road work than in stimulating friendly rivalry among the workers. A careful use of the

drag may save the use of the road grader.—J. O. Rankin, Missouri Agricultural Experiment Station.

Mrs. Lucy Young of Kirksville, who has been visiting in Colorado, arrived Saturday evening for a visit here with her son, B. R. Young.

R. C. Groves returned Sunday evening to his home in Kansas City, after a visit with home-folks.

Mr. and Mrs. Louis Schelp returned Sunday evening from a brief visit in Sweet Springs.
